Dear Mr. Chapple:

Thank you for the copy of "Houses for Everybody." Nobody will be more pleased than I if you produce them. The one in this article looks so attractive - in the picture - that I should like to set one up myself.

You were very kind to me while I was at Middletown and I appreciate it thoroughly. I shall appreciate, too, as you know any further information you may have about your housing experiments.

With all good wishes

Very sincerely

Mr. Bennett Chapple
