UNITED STATES STEEL CORPORATION
NEW YORK

FINANCE COMMITTEE
OFFICE OF CHAIRMAN

February 2nd, 1933.

Dear Miss Tarbell:

I beg to acknowledge receipt of your letter of January 28th. The matter that you refer to presents one of many difficult problems with which we have to deal, and I can assure you that our approach to it is with the fullest desire to render real service to the public in every way and, if possible, injure no one.

I am confident when this entire matter is cleared away your fair sense of justice will approve of our conduct, assuming, of course, that you are fully acquainted with all the facts and circumstances. It would give me pleasure to acquaint you with these facts at an appropriate moment.

I want to tell you how much I enjoyed our little visit when you were here, and have many times reflected the hope that it may be repeated.

Sincerely yours,

Byron Taylor
