

EDITH ROWLEY
LIBRARIAN

THE REIS LIBRARY
ALLEGHENY COLLEGE
MEADVILLE, PA.

September 11, 1937

Dear Miss Tarbell;

The enclosed list of Lincoln items may not have a single thing that is of interest to you but I am sending it on a chance.

The near approach of the opening of college is emphasized by arrival of professors every day. The Halls from Russia, Dean Skinner, Miss Spalding and Miss Ludwig from various parts of Europe, the Uffords and Caveltis from New England. I have not heard whether the Swartleys are here from Cape Cod or not but I called upon them this summer at their charming cottage at East Brewster. Dr. Tolley has been at the Eaton Ranch in Wyoming after a stay at The Iron City Fishing Club in Canada.

The Library is so clean and shiny with its fall cleaning that I wish you could see it. A number of fine gifts have come recently so we have plenty to do and from three to six people have worked all summer hard as it is. This year we are to have an assistant in the catalog department and so expect to get the rest of the old *Original Library- books catalogued. The Campus is being groomed for next week and the Alumni Gardens are really lovely for the first year of this new project.

I hope your own garden has been satisfactory and that you are rested and feeling well again. We are sorry to lose Dr. Woodring to Ohio State for the year. With Dr. Giddens on leave it will be hard on the History Department.

Cordially yours,

Edith Rowley
