My dear Miss Tarbell:-

In answer to your letter of April 11th, we take pleasure in informing you that of the total membership of 1300 in the Chamber of Commerce, fifty are women. ✓

These women are engaged in such occupations as bank work, publicity work and the managing of hotels and apartment houses, also public offices, such as teaching in public schools.

On the whole the women who are most active in the management of their own businesses are those who are engaged in publicity, managing hotels and apartment houses and public office work.

If we can be of any further assistance to you, please do not hesitate to call upon us.

Very truly yours,

H. J. Douglas, Manager,
Membership Department.
