My dear Miss Tarbell:

I enclose this clipping in regard to M. Gemin? I think there is good material there for a well written interview. But you should read the articles in the Review of Reviews, so as to be thoroughly full of the subject. I am going to have a symposium in my magazine on the learning of languages and will supplement the interview with Gemin with another interview with Prof. Blackie. I should want the interview to be very meaty and full of interest. I think that you could do it well.

I have just noticed the announcement of an article by Dr. Haffkine of the Pasteur Institute. I am very chief anxious to have a good interview with Pasteur's assistants, and it may be that Sherard or Jaccard will be able to get it. Otherwise I hope that you will have the matter pushed through.

Very sincerely yours,

Miss Ida M. Tarbell,

17 rue Malebranche,

Paris, France.
