

37 MADISON AVENUE

MADISON SQUARE

Jan 22^d. 1910

My dear Miss Webb,

Miss Allen Collins -
who, as Act. of our
Webb "Committee on
Asthma", worked daily
through the war,
writes me that she
has a number (probably
a full file) of the
"U.S. Sanitary Commissioner
Bulletins." The

Bulletin was the
official publication
of the Commission
(from the headquarters
office at Wash.)
during the war.

Miss Collins suggests
that you should
come to her house

to see if she has
what you want to
see (to borrow, I am
sure, if you wish to),
and I enclose a
line of introduction
— to be used or not
as you may prefer.

Miss Collins, ^{as you see,} lives
alone, ^{or so} now
almost blind. She

is of a Quaker
family - a much-
respected family -
philanthropic,
patriotic.

If I'm Irish home
 mysteriously (a. then)
 Bulletin gives the
 better outlook, it
 will be best to write
 before hand making
 the appointment. It
 was Miss Collins who
 sent "Hospital Day"
 for you.
 Sincerely,
 Louise Lee Schuyler
