Things were growing steadily ~~there~~ ^{were} after the Panic.
By 1896 the lowest level since the Civil War
was reached, measured by the total volume
of things produced in any of agriculture and
industry. ~~that this crop~~ was ~~60%~~ 40% below
a normal 1910-20% below what it would
be beginning of 1893 the Panic part of the de-
pression. It was also 40% even below the
average in ~~1933~~ at the end of 1932.*
