Miss Ida M. Tarbell,  
120 East 19th Street,  
New York, N. Y.

My dear Miss Tarbell:

Following up our conversation over the 'phone to-day regarding preparation by you of some short story subjects under a series title "100 Great Americans,"

We feel sure that you could furnish this material for us better than anyone else and would be very glad to count on your cooperation along this line some time in the future. It will be at least three or four months before we are ready to really produce any of these subjects, and maybe longer. In fact, we are not bound by any definite time but would like to have the matter in mind so that it comes through within a reasonable time.

Dr. Williams has promised to prepare a series of subjects for us entitled "The Romance of Science."

Mr. Kincaid and I are both anxious to place your name, as well as Dr. Williams', on our Editorial Staff. We feel that you are fully in accord with the idea which we are trying to put over and will be glad to hear from you that it is agreeable for us to include your name, together with Mr. William R. Lighton, Dr. Williams, Miss Lovewell, and others who are furnishing material for us.

Trusting that you have fully recovered your former health, and thanking you for your many courtesies, I remain,

Very sincerely yours,

A handwritten signature in dark ink, appearing to read "W. R. Kelley". The signature is written in a cursive style with a large, prominent initial "W".
