My dear Mr. Dillin:

Thank you for calling my attention to your interesting and valuable possession - the Boone Bible.

I have known of this book, also of a record in it of the death of an Abraham Lincoln at Oley in 1806. This was not the grandfather of the President, however. That Abraham Lincoln was killed by Indians in Kentucky several years earlier. However, the book is valuable for students of the Lincoln as well as of the Boone family, and I hope that finally it will find a safe place in some historical library of the State.

Thanking you for calling my attention to the book, believe me

Sincerely yours
