

W. 22.

April 8, 1927.

My dear Mary Anderson;

I have not troubled you for information for a long time and now it is something which I am sure your secretary has at her finger tips. What I want to know is the increase that you are now calculating on the number of women in gainful occupations given in the census of 1920. I want it not only for the whole number but for the various categories.

If you have any recent publication on the comparative wages of men and women, I should like them. I remember in 1919 you sent me a very interesting set of comparative figures, the result of an inquiry by your Bureau. I suppose you have something later. I should be grateful, if you have, if you would pass it on.

With all good wishes and hoping that one of these days I am going to have a visit with you, I am,

Very sincerely

Miss Mary Anderson,
United States Department of Labor,
Washington, D.C.
