

October 21. 1899

My dear Miss Tarbell

I am very glad that you
purpose printing the Linsen
letters & speeches are included
in Nicolay & Hay. I return proofs
of the Johnston & Palmer letters.
The text is printed accurately
the extensive corrections are in
pencil to conform to the
originals - the use of dashes for
periods is remarkable.

The letters in H. C. Whitney's volume
originals of many of which I have - are not

given by H. C. W. is the letter to Raitt
Feb. 20. 57 - which Hemmon purchased
& which I now own. I shall go over
my collection next week and make
copies of those not printed & send
you. I am looking forward eagerly

to the publication of your completed work.
As I have liked the magazine articles
your Linsen books will constitute
an important factor in my collection.

We shall be delighted to see you this
winter & hope that you will not
fail to come. I am anxious
to show you my books - augmented
in number & improved in arrangement.
Sincerely Yours
William H. Lambert
