

August 3, 1935

Mr. W. A. Smith, Jr.
Halls, Tennessee

Dear Mr. Smith:

Miss Tarbell wishes me to thank you for your letter of July 26th. In regard to the home she describes in the August issue of the Pictorial she wishes me to say that the American Rolling Mill Company do not make the homes, they make the steel sheets which go into the making of the homes. Their address is Middletown, Ohio.

This company has taken a very active part in the development of steel homes and has worked with leading companies now in the field such as the Insulated Steel Construction Company of Middletown, Ohio and the Steelco Company, 59 West Austin Avenue, Chicago, Illinois.

Hoping the above will give you information you desire, I remain

Yours very truly

Secretary to Miss Tarbell
