Miss Ida M. Tarbell
120 East Nineteenth Street
New York City

My dear Miss Tarbell:

If you never did anything for us other than just to write me the helpful and discerning letter of September 21st that alone would be "active service" of measureless value.

Others, among them Maude Wetmore, have taken the view that you did about what was not intended but what could be interpreted as a political threat. Of course, since none of us intended such a thing everything that can be interpreted as a threat or as unfair criticism will be eliminated. I am going to write you further on the matter.

I am dropping this note only to express our deep appreciation and also to tell you that Wednesday night September 26th at 7:45 Eastern Standard Time (which I believe is 8:45 New York Time) HOPE will go on the air on the Blue Net Work of the National Broadcasting Company. The subject of our program is "The Real and the Ideal in the Housing Act." Our speakers will be Dr. Boyd Carpenter and the attorney, Mr. Marvin Farrington. It is my earnest hope that you will be able to tune in for I think the addresses will fill in the picture of HOPE's objectives and methods.

It will indeed be a delight, if when you come to Washington, you will give me an opportunity to see you - perhaps you will take lunch with me.

Yours sincerely,

Marie L. Obenauer
Marie L. Obenauer,
Joint Chairman
