Miss Ida M. Tarbell,
Women's Committee,
Council of National Defense,
1814 N Street, N. W.
Washington, D. C.

My dear Miss Tarbell:-

The Food Administration sends out a clip sheet which tells among other things the activities in the field in relation to home conservation. I believe there would be much which you have, due to the work of the Women's Committee in various parts of the country, which would be good for us to know. When you are here in Washington will you arrange for a representative from this office to see this work, if the plan meets with your approval.

Yours very sincerely,

U. S. FOOD ADMINISTRATION
