Dear Miss Prink:

I am returning galleys 1 - 77 with copy of same. Also, text for the dedication page. I will try to get the balance of the proofs to you tomorrow and will do the pages promptly.

If in any way I hasten matters let me know.

Very sincerely

P.S. I saw Dr. Giggins of "The Birth of the Oil Industry" last week in Meadville. Nobody ever had so much fun doing a book or was more excited over his experience with you and the others at Macmillans. He is coming down in the Spring and if I may I am going to bring him over and introduce him.
