"Love, love, love". the passionate dumn war dwelling
~~In and dwelling~~
In a thousand cadences dwelling
through the valley stood
Rocked in its hammock of hillsides

What wonder then then that Pietra
Looked love to the glance of — nā
To ~~be cold when~~ put disdain in that love dumn
Since 'twas sin and crime dolorous.

The lake lay in love's still perfect abandon
The ~~heart~~ Bosom of the earth upon
The sunset thrilled in song ecstatic
~~In the~~ mad with rapture [illegible]
