

August 23, 1929

Mr. W. A. Huse
544 West 43 St.
New York City

Dear Mr. Huse:

I have been out of town for several days or I should have taken you sooner at your word, that is, that you will be glad to send me a copy of "Old Peppersass", with your compliments, for my files.

Some time in the next two years I may want to use the picture in a volume that I am contributing to the series on American Civilization. It covers the last twenty years of the Nineteenth Century, dealing with industrial and commercial developments largely. The volumes are illustrated, and I would like to see "Old Peppersass" on a page with other locomotives active at the time. Do you suppose it could be arranged?

Thanking you for your kindness, believe me

Sincerely yours
