Miss Mary Anderson,
Women's Bureau of the Department of Labor,
Washington, D.C.

Dear Miss Anderson:

I am looking for some information on Women Inventors and the Patent Office tells me that they have no statistics. Many years ago, on one of my first pieces of journalistic work, I spent some days in the Patent Office making a little investigation on my own account, along these lines but the material gathered then is altogether out of date. What I want is the record as nearly up to now as possible. The Chief Clerk at the Patent Office tells me that you may have something, and, if you have, I would be most glad to have it.

Very sincerely,

IMT BWK.
