Dear Dr. Barton:

I am afraid that your last letter and the accompanying pamphlets has not been acknowledged. Your effort to "stuff the ballot box" is not a subject for criticism, but on the contrary is highly approved. Thank you very much for the pamphlets.

I am glad to see that you and Miss Tarbell are on friendly terms. In her latest installment, I notice, she mentions you in complimentary fashion. I note, too, that she has lost faith in the view that there was a Mary Shipley Lincoln who preceded Bathsheba as wife of the senior Abraham. So I am becoming suspicious of that encyclopedia article. Am about ready to say that I will never believe anything that I read in such books.

Gratefully yours,

Daniel Fish
