My dear Miss Sorbel-

I know you will be surprised to hear from me, I hope you have not forgotten me. You have probably heard of my dear Mother's death from pneumonia in Meadville in October 1921. In a little over three years I lost Husband, Father and Mother and I am left alone with the responsibility and care of three children. My oldest boy

Daniel Boyd sent a year ago to Cali-
fornia for a lower altitude and
warmer Climate, as he was going
too fast for his strength. He has
been at the Monte Vista school for
Boys near Los Gatos - and has
improved greatly - and will be
home this summer. He is now
15½ and is a Sophomore in High
School. Mary and Roberta are
both in Junior High School.
Now for my purpose in writing
to you. For three years I have
struggled along, hoping that
happy securities which has

been left me. would recover. and pay divi-
dends. but in the past few months I have
found that they are practically worthless,
and it will be years before I shall get any money
from them, if ever. If all the investments left
me were paying interest I would not
have to worry, with three thousand of
dollars tied up in Texas land &c.
Now I feel that I must do something
to supplement my income and educate my
children. There are two lines of work for
which I believe I am fitted, statistical
work - or as Dean of Women in a School

of College. For Record My training in Statistical work. The Annual Banner's Budget to "Defy" Record history made. For the past four years I have been Corresponding Sec. of the Women's Home Missionary Society of the Methodist Church which has been wholly volunteer, and to which I have given my entire time outside my home with its many reports, Correspondence and Public Speaking. That has been good training for me, but Church or Missionary work does not offer an adequate salary for a woman

I would prefer a position as Dean of women in some small College - where I could keep my Children with me - tho' if necessary I could temporarily put them in Schools - I feel my A B from Wellesley ought to help me there - I am 44 years old - and don't feel it - and my Children & friends say, don't look it. I am in perfect health - and love contact with young women - and my Church work shows I have a talent for it - I read your article in Collier's on Antioch

College - and when President Morgan was here last week to speak at the inauguration of Chancellor Kaufer (on Allegheny day), I had an interview with him - He said they had a Dean there, who was a "Rare woman," but that there might be some other opening for me there - Do you think that would be the place for me where I could educate my Children, and partially support myself? Your work takes you in so many places - and among such different classes of

people, that I am taking this liberty of writing to you to ask for any suggestions you may make as to lines of work for which I am fitted, or for any information about openings suitable for me (or for which I am suited.) so that I may enter into correspondence with them. I hope the way may open for me to go to Wellesley this June for my 25th Class Reunion - and if I do, I would have an opportunity to investigate any openings in the East. I cannot
