

File Safety

January 28, 1939

My dear Mr. Burke:

Thank you for your letter of January 21st. I am glad my little safety talk went to your satisfaction.

I am particularly pleased that you think the article, on "Safety Sense" might be useful. It all depends upon my being able to get experiences which illustrate what I have in mind. Of course, a dramatic picture or two would greatly help, but if that is not possible, an illustration by an imaginative artist would be possible. What I want are the actual experiences of men in using their quick wit in saving themselves. A wit or sense acquired by long familiarizing with what is dangerous in their particular occupation, and determined effort to keep out of the particular danger, if it is possible. *e/*

I shall await returns of your inquiry with real interest.

Very sincerely yours

Mr. T. A. Burke
