File G

June 29, 1932.

Dear Mr. Gifford:

It was kind of you to show interest in the article Miss Sousley and I are trying to work out on the superior value of the trained social worker. It may be a little difficult to place in the widely circulated popular weekly or magazine where it should go, but I shall be as persuasive as I can, and hope that we may get something that will be of use.

One of these days I should like to go down to your establishment and talk over things in general, and the Tel and Tel in particular. I should very much like to get your thought on several things that are interesting me just now.

Very sincerely yours,

Mr. Walter S. Gifford,
195 Broadway,
New York City.
