

April 3, 1925

Mr. Harold Phelps Stokes,
Assistant to Mr. Hoover,
Department of Commerce,
Washington, D.C.

My dear Mr. Stokes:

Thank you for your letter of March 26,
telling me that you have collected the material on the 12-hour
day in the steel industry.

I am not quite ready to use this material, but if
you do not object to its being out of your office for three or
four months you might send it on to me, and I can be digesting
it as I have the opportunity. If you prefer not to have it so
long out of your hands, I will write you when I am ready to use
it.

Thanking you for your courtesy in the matter,
believe me

Very truly yours,
