Miss Ida Tarbell

My dear Ida.

Have been from home since Sept.11th.1918. or directly after my marriage to Miss E. Leta Card of New York ,formally Directress of Nurses of the N. Y. Polyclinic Hospital Post-Graduate School for Nurses She has been Supt. of Hospitals and Training Schools for 12 years prir prior to coming to New York.

She is a Canadian by birth,her Mother and Sister living in Port Hope ,Ontario. I tried many times during my visits to N. Y. in 1917 to find you ,but was unable to learn of your exact location or to find you at home. We mailed you our wedding announcement and hope you received it. We sailed for our Jamaica home on Sept.11th.,remaining there until April 22nd. when we sailed for Peru ,by way of Panama and the Pacific Coast, to look after my mining interests.

I think you are aware of our exploits in Peru thru the Inca Inca Mining Co,,you personally know the men connected with the Old Inca Co. C. P. Collins,Joseph Seep, John J. Carter,and many other Cil Mn were my former associates , sorry to say however that most of them are now dead. I took over the property in 1911.and have been over the Ands several times to give my attention to this large property.

Mrs Emery has written a home letter ,giving a brief description of our journey from Jamaica to the Mine,therefore will not now write abot the trip ,she having covered the ground quite favorably . We consider you one of the family and are inclosing her letter,with photos of some of the scenes in the Andes. Leta thought her home scribbling would not interest you ,but my opinion that it would prevailed. Amoung the lot of photos taken and developed by Mrs E. ,you will see Mrs E. on

on the trail with her Indian boy,and myself in company with a donkey sitting on the stairs at our shack at La Oroya ,where there is a large bridge over the Inambari River ,belonging to me and the key to the Amazon Valley ,about 85 miles away to the North-east.

Am in excellent health. The Inca Mine is quite promising.

We expect to leave here about Dec.15th. arriving in Jamaica about Jan.5th.1919. We inclose a few views of our Jamaica home . We have lots of room ,and certainly it is one of the most delightful spots I have ever visited,and you know I have been somewhat of a globe trotter,and know the climates of the world,and located our home at Montego Bay,because of its beauty and healthful surrounddings .

We have a sven passenger Auto ,and 2,ooo miles of macaden road on the Island.We would be very pleased indeed for you and your Mother,if she is still living ,to join us this winter after the first of Feb. at our home Montego Bay,Jamaica,B. W. I . .This is our post-office address,We call our place "Sunset Lodge ,Palm Beach."

If you can possibly spare the time dont say no for you know you are more than twice welcome ,and Mrs Emery is anticipating the pleasure of meeting you.

Mrs Emery joins me in best wishes to you and your Mother.

Very sincerely, Lewis Emery Jr
