My dear Mr. Perry:

Thank you for the trouble you took in securing the picture of your father for Mr. Garrison. It reached me several days ago. We shall of course return it to him as soon as we are through with it. It was not, however, a photograph but a photogravure, for which we are sorry. We could do so much better of course if we had an original photograph. I take it from your letter, however, that that was not to be had.

And thank you for the promise of memoranda on your father's work as a free trade advocate. I shall find a place in a future chapter to refer to his work again. I am particularly anxious to have some more personal details.

Very sincerely yours,

Sda M. Tarbell

Mr. Bliss Perry,
