Mr. James Wallen,
5010 Goodridge Ave.,
Fieldston, New York.

Dear Mr. Wallen:

Thank you for the trouble you took in looking over the paragraph which I prepared on the Garment Center. It is not an article on the Clothing Industry but one of a regular series of problems that arises in connection with the Women in Industry.

I was particularly interested in what you and Mr. Singer told me the day I had the pleasure of lunching with you, about women in the Garment Trade and have given considerable space to it. Among other things a little interview with Madam Reich. Very much of a person she is, isn't she.

With all good wishes,

Very sincerely,

INT BK.
