Dear Madame: There has been an assessment of 10¢ per acre by the Fictive Water-users after the last one was in 1910. There is a payment of \$9³⁰/₁₀₀ per acre to Govt. on Canal Construction & this was due in March 1912 but is delinquent in March 30th if not paid before & then no water can be had for 1913 irrigation, if this is paid, then there is \$1⁵⁰/₁₀₀ per acre for maintenance which must be paid before April 1st. The total per acre to be paid in March is \$10⁹⁰/₁₀₀. For your 5 acres it will be \$54⁵⁰/₁₀₀ for which amount please send draft in ample time. Pruning is going along & every thing looks fine.

Respectfully
Henry Johnson
