Mr. Allan Nevins
Editor's Rooms
The World

My dear Mr. Nevins:

May I hope to see soon the chapter in which you sum up your volume? I do not want to make a false start.

I have just had a letter from the Worcester Industrial Museum, inquiring for their volumes of photographs. As soon as you are through with the one which I loaned you, will you kindly let me have it?

You told me, too, that you would lend me "The History of Inventions." Could I send for it? I am ashamed to bother you, but I am getting into my job and want to get as much of my ammunition around me as I can.

Sincerely yours
