Dear Miss Tarbell, Arthur Gumpus

Dear Miss Tarbell,

I am glad to be able to infer from your inquiry of July 22 that your work of investigating Lincoln still goes on and that you may publish more on the subject. The Mier articles are disappointing but, I think, valuable. I know of nothing else that has been published. My own work

has been confined to the Illinois period, subsequent to 1830. It is possible I may be able to give you one or two suggestions that will be helpful and as I shall be in New York on the 5<sup>th</sup> (author's League luncheon at Brown's Chop House) and 6<sup>th</sup> of August I shall try to find you.

Mrs. Moore and I are expecting to be at the Hotel Pennsylvania and you may send me a line there if you find it convenient to make an appointment, or here if you write at once
