February 8, 1938

Dear Mr. Hertz:

Will you be good enough to give me the date if you have it of Dr. Butler's talk with Robert Lincoln about placing his papers with the Congressional Library? I have some data on the matter with which I should like to put it. You see I knew Robert Lincoln fairly well and talked with him more than once about the papers and their final disposition. I would like to get my mind straight in the matter.

I am glad you think my suggestion that a life of Herndon would be useful is a good one, but it ought to be a pretty well rounded mind that undertakes it.

Very sincerely

Mr. Emanuel Hertz
