Miss Ida M. Tarbell
New York City

Dear Mr. Tarbell:

I have just received your letter of May 31st and I think it will probably be better after all for us to show our film to the Pen & Brush Club some time this Winter.

I am sure that we will be able to arrange a date some time at our mutual convenience.

We gave a premier showing of our completed film to several hundred local people last Tuesday morning and I am pleased to be able to tell you that it was fully up to all expectations.

My son and I are leaving here in about two weeks for New York to show the film to a number of interested people. We may be in that vicinity most of the summer. On my arrival there, will endeavor to get in touch with you and even though you are to be in the West a good portion of the summer, we may be able to connect some time before my return.

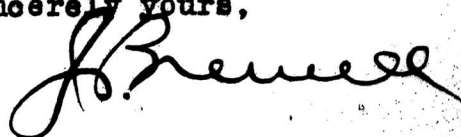

If so, we would be pleased to show the picture at a hotel or any other place to suit your convenience. If we do not get to see you this summer, will undoubtedly meet you there early in the Winter, when we will see if we cannot arrange for the Pen and Brush Club showing, which you suggested.

This completed film is such a great improvement over that which you saw when you were here that I will never be content until you have seen it. Since you were here I have seen my sister, Emily Newell Blair, and told her about our little visit. She said for me to be sure to give you her best regards any time that I might see you again.

With kindest personal regards and best wishes, I

am

Sincerely yours,

JPN:LT
