Friday Nov 5-

Dear Miss Feltell

Do you think it
fair to have the Times publish your
photograph and give all your friends
like my self a shock - I for one have
seen too many of my friends become
this way that I am afraid when
I see a portrait - even if you do
get paid 2000 or more a col for
your ideas about the elections of the
over days - I never like to watch
story for story and I lived with me
yoursel and Chesnut Hill
almost all my life and things
did happen - I never if the
Supreme Court Justice Hughes has
has in his autobiography speaking

from our corner 22 St and
 I am as he ran for Governor
 of New York and started on his
 was politically —

But the noble argument I am
 sending to a lady 50 years young
 is to put the 100 year club as I have
 no dues — only the determination
 to see the Century personally
 Just as I was sharply
 out many from my letters I have
 your dated — From John B. Bethel
 Conn. — 6-5-37 I always have to count on
 my fingers what minute is intended
 Have you been coming with
 the good Residents you refer to?
 Have you come back restless & fresh
 and willing to rest not work — personally
 I don't think so.

Sincerely, Charles C. Benson
