Dear Miss Tarbell:

Just a line in reply to your note of May 5th to say that you understand correctly the dates for delivering the succeeding articles in your series. That is to say that the 30th of the month will be in ample time for my needs.

I think these articles are going to be fine, and are going to cause quite a stir. I think, too, that they will gain by running late in the fall, as each month the country is becoming more and more conscious of the sort of material with which these will treat.

With all best wishes, believe me

Sincerely,

Harry P. Burton
