Mr. Harvey W. Root,

Norwalk, Conn.

My dear Mr. Root:

Your letter of the 9th is very interesting. Yes! I knew Wing. Have spent many hours with him and have had access to a large quantity of papers and articles that he had written in the past. I have written two articles about his Civil War record. One appeared in the December number of the Ladies' Home Journal and covered some, though probably not all, of the experiences which you included in your article. The two articles will go together in a little book which Macmillan is to publish in February.

I would like very much to see the papers you have written.. If you happen to have a copy of it and will let me look it over I shall be grateful. I would show my gratitude by sending a copy of the little book.

Very sincerely,

IMT BAK.
