My dear Miss Tarbell::

I am mighty glad you are going to serve on our committee on the \$5,000 Annual Achievement Award to American Women. I think it is going to be a big thing.

Don't tell Miss Mary Lawton I asked you to do this but if sometime you can get a chance to slip a word in her ear, ask her to be more reasonable about her work. It would ease the situation. Mary has done a big piece of work but like all new writers she thinks every time a line or a word is changed it is a personal affront to her and some of the stuff she has given us could never be printed in any magazine. If I let her have her way I would spend all my days arguing back and forth with her, which I haven't time to do. If you could suggest to her that she has got to make her material printable and suited to the magazine it might help.

Even editors have some Sincerely,
right
