

Dear Ida Tarbell

700 FT. WASHINGTON AVE.
NEW YORK CITY

My life work The "Rain
Bow arch is finished. after
16 years labor, If you go to
the movies see it in paramount
this Friday Saturday and Sunday -
with an introduction by S. S. B.
I should be more than encouraged
to have you walk in before it,
It's not the arch of 3 years ago,
all that's changed to my original
plan. And some 20 more stakes
added to the plan.

When I see your name or think of
you it is always wistfully with
a sob in my heart - Why have
I had to leave all the years

so pass and not see the
best of womanhood, which
you so represent.

I am alone here Edna The
last of the Norrises is up
in a country cottage, she
can't stand city life.
The children are with her.

Gratefully yours
George Jay Barnard
