Dear Miss Tarbell,

I am enclosing a carbon copy of your article "The Arizona Trail." I believe that you have told Mr. Graeve you will modify the California-Arizona antagonism over water power. We would like to get your changes as soon as possible. If in rereading the article you can see any possible cuts I wish that you would indicate them, for space in our March issue is at a premium and it will, I fear, be necessary to shorten everything scheduled to appear in that issue.

With all good wishes,

Sincerely,

Eleanor Carroll
Associate Editor

Miss Ida M. Tarbell

ec r

P.S. I am returning the two water-colored photographs of Arizona mountains, as we are not planning to use them in Delineator.
