Miss Ida M. Tarbell
Springfield, Ill.
My dear Miss Tarbell:-

I received your message from Evansville yesterday, and am hastening to reply, although my typewriter is not unpacked.

Two years ago I spent a week in Springfield and took a few photographs. It occurred to me that it might be helpful to you, in your Illinois investigations, if you had a series of these photographs, that you might supplement them with other views if you contemplate illustrating your articles.

The Sangamon River print is a very fine one, as good as I have seen. The Rutledge prints were badly finished but the negatives are good. In fact I have the negatives for all these prints.

I shall be glad to send you duplicates for your own collection (gratis), of all prints that your people may use. You will find upon your arrival in New York the following subjects photographed, and I will send the complete series in each, although there are many that you will not care to present to your publishers. The Jefferson County Long Run Home - The Hull Creek Home - The Elizabethtown Home - The Lincoln National Park - The Knob Creek Home - Miscellaneous Kentucky Prints - and Indiana Prints.

I thank you for your kind words relative to my work in Kentucky, and hope that I may be successful in my Indiana work.

Sincerely

Louis A. Warren
