

November 23, 1937

Dear Dr. Whitney:

How dare your sub-conscious mind suggest such a thing "that I wouldn't care a darn about a late note of congratulations." To hear from you no matter how late it is can never be too late. I am glad you think of me as well and happy. I am trying to be. I hope you are both without trying.

Always faithfully yours

Dr. Willis R. Whitney
General Electric Company
Schenectady, New York
