March 4, 1918

My dear Gertrude:

In looking over my notes here I cannot find that I ever sent Mrs. Blankenhorn's proposed letter to German women to Dr. Shaw. I am enclosing a letter to her. Will you send it directly. You better have Mrs. Blinkenhorn's letter copied. This looks pretty ragged. I do not know how I made the mistake about this matter. I certainly had it firmly in mind that I wrote to Dr. Shaw.

I am enclosing a little scheme for handling the children's drive. I think that Mrs. Blamkenhorn ought to give practically all of her attention to this until it is under way. It is the most important thing that we have on hand now. She cannot do much with labor at present, but a great deal can be done here. It is a definite project, and it will give us a chance to learn how to do these things

I am enclosing a letter from the College at Ames, Iowa. I should like to have them on our list. It is a good place. You better take up with Mr. Clarkson the advisability of charging a small sum for the News Letter for people outside of our organization. This was suggested at the last Committee meeting, but no action was taken.

Affectionately,

Mrs. F. Shelby
