

Done more than speculate with
money - made of small moment -
- if they can afford it;

It is speculation in human
circs that has put a black
mark of the the state of Fla.

Credulous people have lost -
saw things unsuspicious -
and but for the the the
support of families and their
other necessities & schooling
things the unsuspicious about
ed them put them all into
a Fla farm while under the
condition existing - and will be
in a state of mind to be made
to support life -
