Miss Ida Tarbell
120 E. 19th St.
N. Y. C.

ATTENTION: Miss Thelma Wolfe

Dear Madam:

For many months tests have been conducted with various of my samples, inorder to determine which of the samples will stand up best. I am now in a position to enclose herewith a copy of the summary of the reports just rendered by the Electrical Testing Laboratories. You will see from this report that all claims I have so far made are entirely substantiated. There remains no doubt that any sheet of paper treated with this process will have an indefinitely long life, will not become brittle, and will serve every purpose for which it is intended.

With this information in hand, it should be a comparatively simple matter for you to come to a definite conclusion as to what you desire to do in the matter, and trusting to have the pleasure of hearing from you again very soon, I am,

Very truly yours,

DR. JOSEPH BROADMAN
