Dear Miss Tarbell.

I think it is a strange co-incidence to have had Owen D. Young's book come to me, as I had written two or three letters to Owen D. Young and one was answered and to the other two I have not received any reply. The first letter was in answer to his talk in behalf of Franklin D. Roosevelt, over the Radio. The second and third letters were written in behalf of pleading with him to help establish "Prayer Centres" throughout our N.Y. City, one to be established at the City Hall, the others in various hospitals etc. mentioned to him that Steinmetz had created through Electricity what the Spirit in me suggests we may do with Prayer" as both may come under the same order but one is a tiny satellite, the other the great "Shining Sun". I had help establish about eight centres of prayer, through various phases of my career

as a ^{New York} Psy chic and the

direction as to how to do so came

from the same sources where Owen D. Young received his information as reading between the lines. I surmise that Owen D. Young's parents or grand parents had been as rich as thousands of other settlers that had established themselves as or west of the Rockies.

Of course I realize that a biographer has very little influence in this direction but I am submitting personally or impersonally about a tremendous spiritual idea which can do wonders in helping to grow intelligence and reverence in a power that has never failed through out the ages, and which men live by. You know what Emerson said for what are men but like sheep and goats which growish as blind life within the brain if they know God seek not him in prayer, as all are bound by golden chains to the feet of God.

Hoping that you can aid me in this project as your word may help millions upon present crises
 I am Sincerely Yours to the Emerson
