My dear Mr. Bowker:

I have your letter of April 24 with a copy of Mr. Dale's letter. I have all the sympathy of the world with the Carded Wool Manufacturers' Association against the National Association of Woolen Manufacturers, though I have very little with their protectionist attitude.

I threshed this out rather fully years ago in my struggles with "The Tariff in Our Times." If I can find a publisher who is willing to give place to the matter, I think I will try to do a short article soon - it is impossible for me to do more.

Sincerely yours
