December 5th.1923

Miss Ida M.Tarbell;
120 East 19th.St.
Brooklyn N.Y.
My Dear Miss Tarbell,

Much as you have done for us so freely I want to ask even more. Perhaps you may not wish to comply and if so I am sure I will understand.

Some of my plans and dreams for the future of t the Center I have not told you but in short thay are for the development of the work as a Childrens Settlement, with more activities for "kiddies" and the present lines more completely developed.

You will see by the stationary that I have a Mens Advisory Board. I am leaving off the word Men's as I want to add several ladies.

This list of people are some who know of the work and give me the use of their names only,with the understanding that they will not be called upon for meetings or any such thing,but merely stand sponsor for what they know of the work,I in turn to keep them informed quarterly by Bulletin of what we are doing.

Until I formed my Womans Committee it was a lonely task,and about that time along came Louis who has been a great joy to me,and he brought you.

You will see that I have Dr.Cadman,Dr.Sanderson , formerly the head of the Peoples Institute of New York and others.

Is it asking too much of you to ask if I may include your name on my Advisory Board ?

I am sure it will mean a great deal if I can by this means let people know that you know and approve of the work that I am trying to do and I do hope it will be possible for you to say yes.

Another word about the five boys; A third said that his father and mother were both home when he came and that they said nothing at all. In pushing the matter,he finally said they were both drunker than he,so what could they say ?

I fear I cannot get candid information from the other two but this is enough to make the picture as dark as it can be painted,the background against which we must constantly work.

Cordially,

S. C. Hearn
