

December 6, 1922

Mr. Thomas C. Fisher,
701 Realty Building,
Louisville, Ky.

My dear Mr. Fisher:

Thank you heartily for your letter of December 6, with the titles as far as you have traced them for the land on which we located the Morgan-Hughes Station.

I know how much time work of this character takes, and how hard it is to get the time when one has regular professional obligations. I hope, however, the spirit will move you now and then to follow this up when you have a spare afternoon. I feel confident that eventually you will work it out.

Rum After a time somebody will dig up those graves in the Long ~~are~~ churchyard, and you must be on hand when that happens. I only wish that I could hope to be there myself, but that is too much.

Thanking you for the trouble you have taken, and assuring you that I shall be grateful for any bit of information that you send me, believe me

Very sincerely yours,
