

and did not want to pay but very well
wishes we have eased for this issue
March 59- we still can. and still
I want to dispose of it for two
reasons one is that I could use
the money. and the other that I am
the last and only one of our
family that would take care of it as
I have all these years. and not
from the money value. as I had not
considered that until the last few
years. Since reaching so much of A.L.
life and the interest. and prices people
was paying for genuine relics. especially
with his Autograph. which this has.
If you find any one interested and that
write me I will give. free. but until
we do. it is hardly necessary. thinking
you and assuming that this that I have
stated in my previous letters is all true

I am very Truly appreciative

W. W. Dunlap.

P.S. Excuse blots. I have very poor eyesight

as I lost one through accident in the Quack course
at cripple camp and it caused Calorack.

My Father & my western experience in the
Pioneering west would make history as
he made 24 trips from the Missouri River
west before R.R. days ^{as for a} ^{Yuma Salt Lake and} ^{several}
and Indians. So while I have seen a
great deal of the west my education
has been limited and I mention this
only to excuse my blot-bled Grammer
and mistakes in general.

W. W. D.
