

Women

February 5, 1930

Dear President Angell:

I understand how easily the meeting of the members of the National Advisory Committee of The Human Welfare Group might have been called at the University Club here in New York without anyone remembering that women were not allowed within its sacred walls.

I should like to be at the meeting but the report, which you promise, will bring me up to date in the discussion, which is all that is necessary.

Thank you for your suggestion that if I am in New Haven at any time I see and talk over the work. I am going to take advantage of your offer sometime in the spring or summer.

Very sincerely yours

President J. R. Angell
Yale University
New Haven, Conn.
