Sept. 8. 1829.

Dear Miss Tarbell:

~~My~~ My hope of going East this
month has finally gone a 'gleam-
ing' and I am writing to
say that I am very sorry to
miss the opportunity of conferring
with you about the Lincoln
article, for the present. I have
written to the Lincoln Association
& to sources in Lexington Ky. - as
well as Dr. Barton about it.
The latter had nothing new - but
thinks f. bot. gov't bonds at the
market - say 65 - 80 - and that
the rise in value to par after his

death accounts for the total being
so great.

If you have anything in
hand you could let me have on the
subject, I should be deeply obliged
to you - and of course gladly give
you credit - and safely return any
documents re -

Faithfully yours
