Dearest Julie:

Our old friend Mrs.

Waterson died a few

days ago, and I am

sending you a couple

of press notices. We

had a dear letter from

her in Feb. saying that

while she was frail she

was still able to enjoy

many things, and that

her winter in Miami with

her daughter had been a

happy one. Her + Mary

Henry were so fond of

you, & always asked us

most particularly about you.

If there are reunions in

the future world, as I believe,

what joy it must be to them

to be together again! They were

romantic lovers throughout a
long life together -

It seems ages since
we heard from you, and
I am eager to know that
you are better than you
were last winter. I have
been under Dr. Goddard's as
you know, and am getting
steadily better, though the
process is necessarily tedious.
ours.

Can we hope to have a
few days in New York in
July on our way to Maine
and shall count on seeing
you then.

Never have I known a
lozier spring than we have
had here in Kentucky. My
little garden is running over
with honey suckle and climbing
roses. I wish you were here!
With devoted love from us both.
Alice
